

SIMCO Electronics

Calibration Service Levels

A calibration industry leader since 1962, SIMCO provides high-quality instrument calibration services and offers a range of calibration service levels to meet your compliance and quality needs.

- Calibration service levels offered for many types of instruments including electrical, mechanical, dimensional, temperature, time & frequency, and more.
- ISO 9001:2015 certification received from DEKRA Registered Quality.
- ISO/IEC 17025, ANSI/NCSL Z540-1, ANSI/NCSL Z540.3 accreditation for most SIMCO labs by A2LA.
- 2016 Calibration & Repair Services Company of the Year Award from Frost & Sullivan for service excellence.
- SIMCO provides free local pickup and delivery from any of the 22 SIMCO labs in North America, Europe, & Asia.

	SIMCO Calibration Service Levels			
	Z540-1 with OOT Data	Z540-1 with Full Data	17025 Accredited	Z540.3 Compliant
Accredited / certified calibration labs	✓	✓	✓	✓
Traceable measurements to SI / NMI / NIST, physical constants, or intrinsic standards	✓	✓	✓	✓
Full-range calibrations (no "shortcut cals")	✓	✓	✓	✓
Alignments performed to bring asset back in tolerance	✓	✓	✓	✓
OOT (Out Of Tolerance) Data Included	✓	✓	✓	✓
Full Data (As Found & As Left) Included		✓	✓	✓
Data with Measurement Uncertainty Included			✓	✓
Ensures PFA of <2% (Probability of False Acceptance)				✓
